

Utility Bench ASSEMBLY INSTRUCTIONS

Please take the time to carefully read the instruction manual before starting the process of assembling your machine. If you have any inquiries or complications, please call us at 662-GYM-BROS, or email us at info@gymbrofitness.com.

Ensure to tighten all nuts and bolts, lubricate any sliding parts, bearings, and moving mechanisms. We also suggest applying Loctite or any kind of thread locking adhesive to anything that does not thread into a Teflon nut. It is also important to ensure that every movement arm is properly aligned prior to frequent use, and that the machine that you are assembling is fully functional.
